5+ Years Experience

About Me

Building Digital Experiences That Matter

Founder of Embark Digitals. I build fast, modern websites and brand assets for SMEs—combining clean UI, conversion-focused messaging, and reliable delivery.

- Front-end specialist: HTML, CSS, JavaScript with React/Tailwind builds.
- Founder of Embark Digitals, working with SMEs, non-profits, and community projects.
- Treehouse Front End Web Development Techdegree graduate (CodeForward sponsorship).
- Blend of copy, design, and code so clients get websites that are clear, on-brand, and ready to use.

Let's Work Together

Brand brief with logo usage, color, and type.

SLIDES →

DESIGN WORK

TVEI Opening Event

Creative direction and visual rollout for the opening event assets.

CLICK TO OPEN GALLERY

Vine to Bottle — Masterclass Poster

Designed poster for "Vine to Bottle" wine masterclass, promoting wine education and entrepreneurship.

Banner & Executive Banner — Hakem

Designed a wall banner for Hakem Energies and an executive banner for formal engagements.

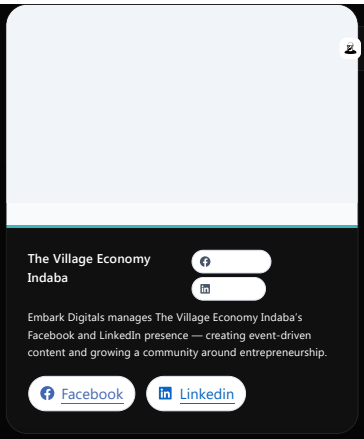
Bicycle Design — Hakem Energies

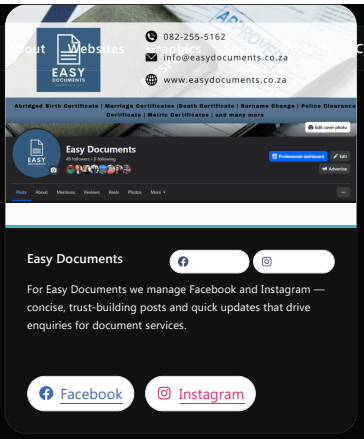
Applied brand assets across a bicycle concept for high-visibility outdoor presence.

Social Strategy

Social Media Management

End-to-end social management—planning, design, copywriting, scheduling, and reporting—tailored to brand voice and audience growth.

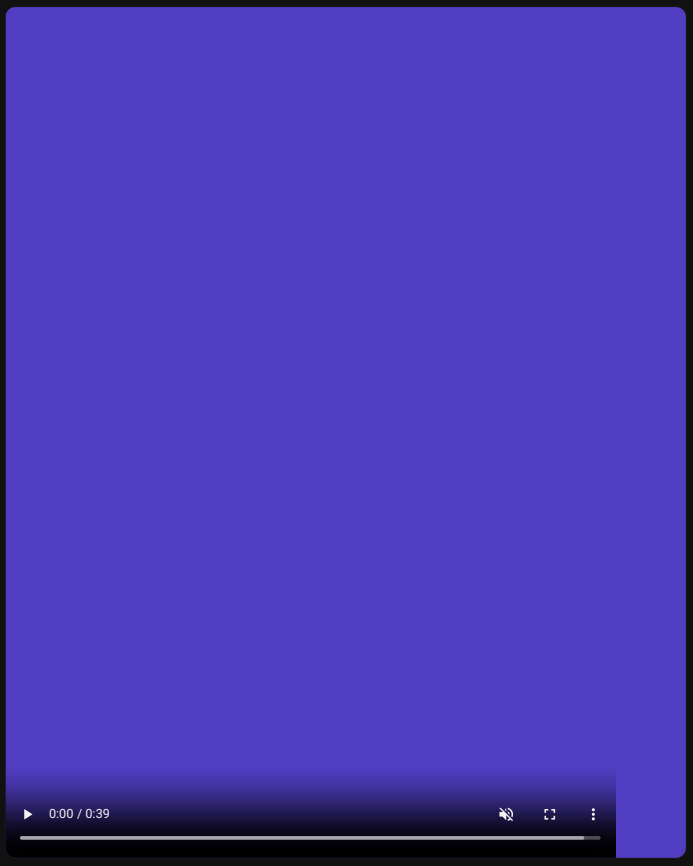




Treehouse Projects

Learning Journey

Eight projects demonstrating front-end fundamentals with interactive audio walkthroughs.

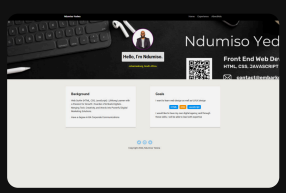


DOCUMENTING THE PROCESS

Not just what I build, but how I get there

I believe in documenting the journey, not only the final designs. This video is a small piece of that: honest practice, figuring things out, and building consistency as a developer and designer.

If you enjoy process, you'll appreciate the projects that follow.



01 — Personal Profile Page
